

TECHNICAL DATA SHEET

FLAMMABLE CABINET BLUE 90 GALLON

DESCRIPTION

Blue steel safety cabinets for corrosives have the same quality safety features as the cabinets for flammables.

All models come with double-wall construction, dual vents, grounding wire connections, adjustable shelves, leak-proof sills, three-point self-latching doors and leveling feet.

An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance.

Even in small working space, compact industrial safety cabinet provides you complete safety and convenience in storing flammable liquid and chemicals.

- Bullman industrial safety cabinet complies with OSHA 29 CER 1910.106 and NFPA CODE 30, FM standard.
- Complete double layer fire proof sheet steel, 38mm insulation layer is put in between double layer wall space.
- Sheet steel of thickness over 1.0mm all-welded together making it more durable and robust, with better fire proof capacity
- Three-point inter-active locking system, easy open-close 180-degree cabinet door with double keys
- Spill control sill of 5cm height prevent maximum leak control on accidental spill
- Professional and standard warning label of high visibility
- Double vents with flame arrestor set on the cabinet
- Unique spill control and leakage shelves can be easily adjusted between up-down hooking supporter
- Inside of cabinet is sprayed with permanent and lead-free paints
- **Specification**
