

Bullman

Bullman Safety Shoes BM1006 Walk mate

TECHNICAL DATA SHEET

Bullman Walk Mate Safety shoes with double density poly urethane sole. Shoe with a reinforced toe cap to minimize foot injuries caused by dropped articles. And also shoe with a sole of material incapable of sparking for work near combustibles or explosives. So its offering full protection.

Shoes offer protection from punctures, cuts, burns and impact and more. Safety boots also offer grip when walking on slippery or un even surfaces, helping to prevent slips and falls which can lead to more serious problems such as broken bones and head injuries. Also penetration resistance (mid sole protection), conductive, anti static, insulated against heat or cold, energy absorbing, outsole resistant to hot contact, water resistant. Anti skid poly urethane adhesive sole, so its better for slippery area.

Applications: General use in multiple sectors and applications where a safety footwear needed (safety cap and anti perforation template), such as construction, work shops, logistics, automotive and manufacturing and industry in general.

Features and benefits:

- Upper Genuine Leather and fabric.
- Steel Toe.
